

It is sufficient for only one member of the group to upload the submission files. Write ONLY your group number ("Group XX") in the Submission Title.

If you don't have a Group on Moodle, put your student number in the Submission Title. If you belong to a group but did not register on Moodle, make sure your name and student number is included on both the report and code.

Upload your pdf report in the REPORT part, and your Jupyter notebook in the CODE part. If you have multiple notebooks, zip them together and upload as a single file under the CODE part.

If the code files exceed upload file size limit, remove or comment out the parts related to the large visualizations (e.g. sns.jointplot() )

We will not accept submissions through email. However, in the case of technical issues related to uploading: send an email immediately to fpontejos@novaims.unl.pt with the subject "DM Group XX Submission Issues". Describe the error message, including a screenshot if available, and attach your project files to the email.
